

Kansas Health Homes Engagement Rate*

September 2014 - June 2015

*The monthly engagement rate is an aggregate rate.

*The engagement rate is calculated: engaged divided by enrolled.

*The difference between the number of eligible and the number enrolled is the number who opt out.

*The number engaged refers to those enrolled members for whom the health home capitation rates have been paid.

*The difference between the number of enrolled and the number engaged is those who were enrolled but unable to receive health home services for various reasons.

*The data is calculated through April 2015 in consideration to the timely filing of claims and the adjustments that occur within. The data will change on a monthly basis due to claims being retroactively adjusted for prior months.
